Washington, DC 20554

Re: GN Docket No. 15-319, CommScope Spectrum Access System Certification Final Test Report

Dear Ms. Dortch:

CommScope submits our attached Spectrum Access System (SAS) Certification Test Report that indicates the CommScope SAS passed all tests administered by ITS in the SAS testing phase that concluded on April 30, 2019. The remainder of the report contains highly confidential test results information.

Of note, the Conclusions of the report state:

“ITS laboratory testing confirms that the CommScope Inc. of North Carolina SAS UUT successfully completed all 971 test configurations contained in Tranche 0, Tranche 1, Tranche 2, and Tranche 3 that were designed to test compliance with the FCC Part 96 rules. *Based upon the output of the test harness, as well as ITS analysis of log files, the SAS UUT successfully passed all tests. No exceptions or deficiencies were noted.*”  
(emphasis added).

A redacted version of the proposal is being filed electronically through the Commission’s Electronic Comment Filing System. In addition, one copy of the confidential version of the Final Test Report and Appendices is being delivered to the Office of the Secretary. Electronic versions (e-mail) of the Report and Appendices are being sent to Paul Powell, Navid Golshahi and Kamran Etemad of the Wireless Telecommunications Bureau and Julius Knapp of the Office of Engineering and Technology.

Please feel free to contact me if you should have any questions or if you require any additional information.

**REDACTED – FOR PUBLIC INSPECTION**

Respectfully Submitted,

/s/ H. Mark Gibson
